Quiet Shield™ Sound Enclosure

Reduces blender noise

Magnetic Sensor

Reduces careless clutch grinding when operators are rushed.

120 V model: turns off when jar is removed

230 V model: turns off when quiet shield is lifted

Airflow Baffle

Constantly circulates cool air around the motor for back-to-back blending and longer blender life

Cavitation Control

Detects when cavitation occurs and prompts the operator to add more liquid

Converts For In-Counter Use

Super-Creamy Drink Profile

The Wave-Action® System, along with speed and blade design, break down ice from a granita texture to a creamy drink profile

Nonskid Feet

hold blender securely in place
